How can you improve your relationship with your children and more effectively parent them? Florence Littauer helps you identify, understand, and meet each child's unique needs.

I enjoyed this book very much. I felt that it helped me to pinpoint and better understand some of my children's personality traits, even though they are quite young (two and four). I especially appreciated learning some specific techniques for parenting my children's different personality types. My sanguine son often seems an enigma to me, and I am frequently mystified by how sensitive and clingy my two year old is (he must say mommy hold you at least 500 times a day), but now I have a better understanding of why and how this melancholy/choleric mama can better nurture them both. I had already read Personality Plus (the original book), and I think that made this book more enriching and useful. On its own, it does not have nearly as much detail about the personality types. Also, if you want to understand how to help your child and show them love in the way that they most desire it, I think it is important to know your own personality type first. I would suggest these books in combination.
